## ALLIES MAKE DEMAND ON TURKEY

Sultan Must Grant Autonomy  
For Macedonia or War Will  
be Declared

SULTAN WILL NOT FIGHT  
UNLESS FORCED TO DO SO

Servia Repulses Turk Battalion  
at Frontier—Allies Summon  
Citizens From Abroad

CONSTANTINOPLE, Oct. 3.—Rep-  
resentatives of Bulgaria, Servia, Mon-  
tenegro and Greece today handed an  
ultimatum to Turkey demanding au-  
tonomy for Macedonia. If the sultan  
rejects the demand, the Balkan co-  
alition will repeat the ultimatum, no-  
tifying the powers at the same time  
that unless Turkey accedes within  
three days, war will be declared.

SERVIANS REPULSE TURKS  
CROSSING SERVIAN FRONTIER  
VIENNA, Oct. 3.—A Servian re-  
giment repulsed a Turkish battalion  
while the Turks were trying to cross  
the Servian frontier today, according  
to a dispatch received here today.  
Reports from Montenegro say all  
schools have been closed, and the  
pupils are greatly excited over the  
mobilization of troops and the pos-  
sibility of a war with Turkey.

BULGARIANS AND MAC-  
EDONIANS ARE CALLED  
HOME FROM NEW YORK  
NEW YORK, Oct. 3.—"Send all Bul-  
garians and Macedonians to Bul-  
garia."

This was the message displayed  
by the Macedonian organization to-  
day, from the president of the cen-  
tral committee at Sofia. There are  
only two thousand Bulgarians and  
Macedonians here, though there are  
large colonies in other eastern cities.

GREEK STEAMERS TO  
TAKE WAR MUNITIONS  
FROM NEW YORK

With two thousand passengers  
aboard, the steamer Macedonia was  
commandeered just before time for  
sailing today by Greek Consul Botas-  
si. Passengers and baggage were  
unloaded, and the steamer was or-  
dered to sail immediately for Phila-  
delphia and take on a cargo of ammu-  
nition. Before sailing for Europe,  
the consul said, the Macedonia will  
return to New York to take on Greek  
reserves desiring to return home to  
participate in the coming war. Or-  
ders from the Greek government to-  
day asked all reservists to return to  
their country.

SULTAN WILL NOT FIGHT  
UNLESS FORCED TO DO SO

LONDON, Oct. 3.—Sir Gerald Low-  
ther, British ambassador to Turkey,  
wired the foreign office that the sultan  
of Turkey does not intend to  
fight the Balkan coalition unless he  
is forced to do so. He is willing to  
make the reforms demanded in Mac-  
edonia, but it will take longer than  
the Balkan states demand.

SERVIANS SEIZE TURKISH  
AIRSHIPS AND AMMUNITION  
BELGRADE, Oct. 3.—Three Tur-  
kish aeroplanes and several carloads  
of ammunition for Constantinople  
were seized today by the Servian au-  
thorities.

TURKEY WILL SIGN PEACE  
TREATY WITH ITALY SOON  
LAUSANNE, Switzerland, Oct. 3.—  
Representatives of Turkey and Italy  
have agreed on the main terms of  
the peace treaty, which they are ex-  
pected to sign before the end of the  
week.

LOYAL GREEKS OF VAN-  
COUVER, B. C. WILL GO  
TO AID OF COUNTRY

VANCOUVER, B. C., Oct. 3.—Loyal  
Greeks to the number of nearly 1000  
are prepared to leave the city and vi-  
cinity at a moment's notice to help  
their fellow-countrymen in the home  
land sweep the Turk from the western  
world, according to the statement  
made here by A. J. Pappas, a promi-  
nent member of the Greek commu-  
nity in Vancouver. In addition to the  
Greeks, Montenegrins and Servians,  
of which there are not a few in this  
city, are preparing likewise to leave  
to assist in the expected outbreak.

Neither Husband Nor  
Wife Will Pay Income Tax  
LONDON, Oct. 3.—That the British  
authorities have abandoned their at-  
tempts to compel a man to pay his  
wife's income tax was indicated today  
in the release of Mark Wilks, arrest-  
ed for refusing to pay his wife's tax.  
Mrs. Wilks, a suffragette, also flatly  
refused payment.

## \$60,000 Worth Of Sugar From Orange County

A trainload of Southern Cali-  
fornia sweetness will roll out of  
Los Angeles Saturday over the  
Santa Fe railroad bound for Kan-  
sas City, Mo., says the Los An-  
geles Tribune. It is beet sugar  
of the choicest grade from this  
territory. This first shipment of  
the season consists of twenty-five  
carloads.

There are about thirty tons to  
the car and the shipment of  
slightly more than 750 tons is  
worth approximately \$46,000, ac-  
cording to present quotations. It  
is a combined shipment from the  
four factories of the Anaheim  
Sugar Company, Holly Sugar  
Company, Southern California  
Sugar Company and the Co-Oper-  
ative Sugar Company, all oper-  
ating near Santa Ana in Orange  
county.

At Kansas City, the trainload  
will be divided among the var-  
ious purchasers and duly dis-  
tributed by them to all parts of  
the country. The sugar will  
travel in stout jute sacks con-  
taining 100 pounds each.

## J. P. MORGAN GOT CHEERS AS WITNESS IS STRONG FOR GOOD ROADS BONDS

On Stand Before Campaign  
Funds Committee 45 Min.;  
Received Ovation  
Board of Directors of Chamber  
of Commerce Endorse  
Proposed Issue

MORGAN ACKNOWLEDGED  
\$150,000 CONTRIBUTIONS  
GREAT BENEFITS ARE  
CERTAIN TO ACCRUE

Said Money Given For "Good  
Government," Said Cortelyou  
Never Asked Contributions  
Five New Members Added—  
Sign to be Placed at the  
Local Depots

WASHINGTON, Oct. 3.—J. Pier-  
pont Morgan took the stand before  
the senate campaign contribution  
committee this morning. Morgan was  
on the stand only fifty-four minutes.  
He received a remarkable ovation  
when he left the stand after telling  
the committee of contributions by his  
interests to the Republican campaign  
in 1904 and 1908. Men and women  
stood on chairs and cheered as the  
financier left the room. Morgan was  
treated with the greatest respect by  
the committee. He told how his firm  
contributed \$100,000 to the Republi-  
cans in 1904, afterwards giving \$50,  
000 for the New York campaign.

"Whenever they wanted anything  
they always sent the late Cornelius  
Bliss, treasurer of the national Re-  
publican committee, to me. What-  
ever the Morgan company gave was  
given for good government and the  
people, I have learned that gratitude  
is a very serious article with the poli-  
ticians. Should we have believed the  
election of a Democratic president  
would have benefited the country,  
our contributions would have gone  
to them."

Morgan appeared to enjoy his ex-  
perience on the witness stand. He  
admitted that he had frequently con-  
ferred with George B. Cortelyou, pri-  
vate secretary of the then President  
Roosevelt, but that he never men-  
tioned campaign contributions. He  
denied that the Morgan company con-  
tributed to any other party in 1904.  
He also denied knowledge of a gen-  
eral conference of financiers to de-  
cide whom they should support for  
president.

Judge Charles Duell, assistant treas-  
urer of the 1904 Republican campaign  
committee, followed Morgan on the  
stand.

At noon the committee ordered a  
recess until tomorrow, when Colonel  
Roosevelt will testify.  
Roosevelt to Testify Tomorrow  
OYSTER BAY, Oct. 3.—Col. Roose-  
velt will confer with Secretary Davis,  
Senator Dixon, Geo. W. Perkins and  
State Chairman Hotchkiss tonight.  
At midnight the Colonel will start for  
Washington, where he is scheduled to  
testify before the senate campaign  
contributions investigation committee  
tomorrow.

LA FOLLETTE DENIES  
C. R. CRANE GAVE \$70,000  
TO HIS CAMPAIGN

MADISON, Wis., Oct. 3.—Unquali-  
fied denial of the testimony given the  
senate campaign contributions inves-  
tigating committee by H. Hooker,  
treasurer of the Progressive National  
committee, to the effect that Charles  
R. Crane had contributed \$70,000 to  
his campaign was made by Senator  
Robert M. La Follette. Hooker testi-  
fied that Crane had told him that he  
(Crane) had given that much money  
to assist La Follette in his fight for  
the presidential nomination.  
In voicing his denial the Wiscon-  
sin senator requested that Chairman  
Clapp summon Crane to testify re-  
garding his contributions.

## TRUST COMPANY LAW IS BEING TESTED

E. D. Wilbur Case Made Tryout  
of Law Requiring \$200,000  
Capital, \$100,000 Deposit

SAN FRANCISCO, Oct. 3.—Habeas  
corpus proceedings are the weapons  
with which attorneys for E. D. Wil-  
bur, president of the Pacific Coast  
Trust Company, who is under arrest  
here, intend to test the validity of the  
state law which requires that con-  
cerns doing business as a trust com-  
pany must have capital of \$200,000  
and \$100,000 on deposit with the state  
treasurer. Wilbur's company, it is  
charged, is doing business with only  
a \$5000 capitalization.

By agreement of counsel, the case  
was continued for one week by Pol-  
ice Judge Shortall to give the attor-  
neys opportunity to test the law by  
habeas corpus proceedings, which  
are pending before the state supreme  
court.

## P.E. WITHDRAWS REQUIREMENT MAKING IT POSSIBLE TO GET RIGHT-OF-WAY FOR RAILWAY

Shoup Satisfied With Free Route Into  
Orange—no Longer Asks For Gift to  
North—Money Practically Raised

ORANGE, Oct. 3.—Orange is assur-  
ed of getting the Pacific Electric ex-  
tension. Today a letter was received  
from Paul Shoup, president of the Pa-  
cific Electric, stating that the P. E.  
will build the extension if Orange  
provides the right of way from Main  
street near the Santa Ana city limits  
to the south end of Lemon street, Or-  
ange. The first requirement was also  
for a right of way north from Orange  
to the Southern Pacific railroad. This  
requirement is now dropped. It means  
that half of the amount at first thought  
necessary will not be needed. The  
sum of \$12,000 will probably get the  
necessary right of way from Main  
street to Lemon street, and the sub-  
scription committee has already al-  
most that much subscribed.

The right-of-way committee is now  
at work getting deeds and options, and  
within a very short time it is thought  
the committee will be ready to turn  
the right of way over to the railway  
company, which will then begin the  
construction of the electric line ex-  
tension to Orange, doing away with  
the gasoline, steam and other kinds of  
dummy that has been in operation for  
some years past.

The announcement that the P. E.  
makes a lesser requirement was re-  
ceived with enthusiasm here, for it  
seemed impossible ever to raise \$24,  
000, which would have been necessary  
under the first offer.

Gov. Wilson Endorses Him For  
Second Place  
INDIANAPOLIS, Ind., Oct. 3.—  
Woodrow Wilson arrived here at  
noon today and lost no time in giv-  
ing the press a statement fully en-  
dorsing William Sulzer for the gov-  
ernorship of New York. He tele-  
graphed his congratulations to Sul-  
zer and Glynn.

ALTON B. PARKER DENIES  
EVER BEING A REACTIONARY  
SYRACUSE, N. Y., Oct. 3.—When  
chosen chairman of the state Demo-  
cratic convention here, Judge Alton  
B. Parker, in a powerful and dra-  
matic speech, with breaking voice and  
with tears in his eyes, denied that he  
ever was a reactionary. He asserted  
that he had supported progressives  
for years, and strongly denied that  
Thomas F. Ryan was ever his client  
or that the New York traction king  
has ever paid him a cent.

## RALPH DE PALMA RACED WITH DEATH

Won Vanderbilt Cup on Barest  
Margin of Safety—Rear  
Tires Worn to Threads

MILWAUKEE, Wis., Oct. 3.—Ralph  
de Palma in a Mercedes car dared  
death at every turn yesterday to win  
the Vanderbilt cup race at the Wau-  
watosa course. He cast the die with  
death and won.

For the last forty miles he dashed  
around the dangerous course at  
breakneck speed, with both rear tires  
worn to threads and ready to burst at  
any moment. To stop for change  
would have been racing suicide, as  
Hughes in a Mercer was less than a  
minute behind him. To continue  
seemed to the experts genuine sui-  
cide, as the bursting of a tire at the  
speed he was making probably would  
have ended in a fatal crash like that  
of Bruce-Brown the day previous.

Never in the history of racing has  
a driver taken such chances as De  
Palma took yesterday. Two gallons  
of overheated air in a flimsy and un-  
certain gauze of rubber was all that  
stood between him and an accident  
which doubtless would have ended his  
racing career.

Fame and \$5000 lured him on and  
he accepted the wager. It was a long  
shot in a lottery, but it won both  
ways.

De Palma's time for 198.64 miles  
was 3:20:31.54, an average of 69 miles  
an hour. Hugh Hughes shot across  
the tape in his Mercer car second,  
just 0.41% behind De Palma. His  
time was 3:21:14.29 and his average  
time 68.8 miles an hour.  
Wishart, in a Mercedes, won third,  
his time being 4:06:35.75.

HE DENIES CHARGE AND  
SAYS AFFAIR IS "FRAME-UP"

Guy Eddie, city prosecutor and cen-  
sor of public morals, was arrested  
yesterday afternoon in his office at  
central police headquarters by officers  
D. F. McLaughlin, D. A. Johnston, F.  
W. Lloyd and W. F. Holman.  
Immediately after being placed un-  
der arrest Mr. Eddie was taken be-  
fore Judge Wilbur of the juvenile  
court, of which Mrs. Phelps is a ward.  
Judge Wilbur granted Mr. Eddie a  
private hearing, and at the conclusion  
of the hearing it was announced that  
Mr. Eddie had been arrested on a  
complaint sworn to by H. S. G. Mc-  
Cartney, special prosecutor for the ju-  
venile court, and released on his own  
recognizance to appear for arraign-  
ment at 2 o'clock Friday afternoon.  
Eddie denied the charge, declaring  
it a "frame-up" of his enemies. He  
refused to outline what his defense  
will be.

## ROOSEVELT'S ELECTORS ARE "IT"

State Supreme Court Decides  
They Are on the Ballot Under  
"Republican" Title

TAFT LEADERS DENIED  
MANDAMUS WRIT SOUGHT

South Dakota Electors Swear  
Intention of Voting For  
Roosevelt

SAN FRANCISCO, Oct. 3.—  
The State Supreme Court today  
denied the application of the  
Taft leaders for a writ of man-  
damus to force Secretary of  
State Jordan to put the Taft  
electors in the Republican col-  
umn of the November ballot. The  
court decided that the  
Roosevelt electors are entitled  
to the designation of "Repub-  
lican."

SACRAMENTO COUNTY WOMEN  
TO FORM ROOSEVELT LEAGUE  
SACRAMENTO, Oct. 3.—Eighty  
women have signed the call for a  
meeting of women interested in form-  
ing a Sacramento county Roosevelt-  
Johnson League, to be held today in  
the Hotel Sacramento. Mrs. Ed. H.  
McKee, vice president of the Roose-  
velt League of Sacramento county,  
which took an active part in the  
primary campaign, is one of the prime  
movers.

WILL PROBE TROUBLE IN  
HIS POLITICAL FAMILY  
SACRAMENTO, Oct. 3.—In the  
opinion of official circles, Governor  
Johnson will investigate the dissen-  
sion existing in his political family  
when he returns to California. The  
trouble arose over charges made by  
Surveyor General Kingsbury against  
Louis Glavis when Glavis appointed  
several lumbermen on the conserva-  
tion delegation to Milwaukee.

ELECTORS OF SOUTH  
DAKOTA FOR COLONEL  
SIOUX FALLS, S. D., Oct. 3.—The  
presidential electors elected at the  
Republican primary, in a signed  
statement, declare they will cast their  
votes for Roosevelt if chosen at the  
November election.

## CONSERVE HUMAN LIFE IS HIS PLEA

E. A. Rittenhouse Tells Nation-  
al Conservationists Such is  
Paramount Issue

INDIANAPOLIS, Ind., Oct. 3.—That  
human life is our paramount asset  
and that its conservation should be  
our paramount issue, was the asser-  
tion made by E. A. Rittenhouse, con-  
servatism commissioner of the Equi-  
table Life Assurance Society of the  
United States, in an address before  
the National Conservation Congress.  
Commissioner Rittenhouse said in  
part:

"The first right in humanity's bill  
of rights is the right to live. To pro-  
tect human life from needless de-  
struction is the primary purpose of  
organized society.

"We have made progress in pre-  
venting life waste but it has been  
confined to contagious or infectious  
diseases. At the same time the  
death rate from the degenerative dis-  
eases of middle life and old age  
against which we have waged no war,  
has steadily increased."

THREE GREAT AGENCIES FOR  
THE SAVING OF HUMAN LIFE  
INDIANAPOLIS, Ind., Oct. 3.—Ir-  
ving Fisher, professor of political  
economy at Yale university yesterday  
told delegates to the National Con-  
servatism Congress that the news-  
papers, the insurance companies and  
the federal government are the three  
great agencies to which the people of  
the country must look for the saving  
of human life.

As a first step in the great work  
of human conservation, Professor  
Fisher urged the establishment of an  
adequate system of collecting and dis-  
tributing vital statistics similar to  
the system in use in Sweden.

## 200 BOSTON FANS TO BACK RED SOX

Mayor Fitzgerald to Head Rooters; \$30,000 Says Boston Will Win World's Series

NEW YORK, Oct. 3.—Canvassing brokerage houses which have Boston connections, a reporter here stated he was informed that about \$30,000 had been wagered at odds of 5 to 4 in the last few days by those who believe Boston will win the world's baseball championship series.

It is evident that Boston enthusiasts intend to come to New York in great numbers for the first game, as the New York club has received a request from Mayor Fitzgerald, of the former city, for 300 seats at the opening game.

It is said that Mayor Fitzgerald intends to lead a band of American League rooters.

## WASTE LANDS NEED TO BE RECLAIMED

Cost Small in Proportion to Gain—Seepage and Alkali Great Foes

MINNEAPOLIS, Oct. 3.—Two of the most serious handicaps confronting agriculture in irrigated regions are the seepage and alkali problems, according to C. F. Brown, consulting drainage engineer of Salt Lake, who delivered an address yesterday at the conservation convention, on the "Drainage of Waterlogged and Alkali-Irrigated Lands." He said, in part:

"Throughout the irrigated West, there are approximately one million acres of waste land in areas ranging in size from a few hundred to many thousands of acres. These lands are most fortunately situated near the large cities, having been the first brought under cultivation. They were once very productive, but unlike the worn-out lands of older sections, are still rich in all of the elements of plant fertility, and their present state of unproductiveness is due to excessive water and alkaline salts.

"In presenting reasons why the cost of reclamation by drainage will be comparatively low we need only take into account a few of the natural advantages, such as nearness to labor markets and bases of supplies. Advantages from this cause alone often decide against meritorious projects. No expensive machinery and equipment will be required for the largest jobs.

"Let us contemplate the tremendous return to follow such reclamation. Most of these lands are capable of producing the same or better crops as those mentioned for the \$500 land in Cache county, Utah, but will take an average value of \$200 per acre. To the state of Utah alone there would be an annual return of \$14 per capita. There would be added to the state's assets in the surest wealth \$50,000,000, at present values. To the West there would be added \$200,000,000 producing in the aggregate \$20,000,000 annually."

Santa Ana Has to Bow to the Inevitable—Scores of Citizens Prove it

After reading the public statement of this representative citizen of Santa Ana given below, you must come to this conclusion: A remedy which proved so beneficial years ago with the kidneys, can naturally be expected to perform the same work in similar cases. Read this:

P. P. Fraser, 1642 Regent St., Santa Ana, Cal., says: "For a long time I was afflicted with weak kidneys. I suffered from pain in my back and was caused much annoyance by too frequent passages of the kidney secretions. Finally I commenced using Doan's Kidney Pills, procured at Dean's Drug Store (now Wheeler & Mateer's Drug Store) and it did not take them long to remove the pains and other difficulties." (Statement made March 8, 1907.)

**Confirmed Proof**  
On August 11, 1909, Mr. Fraser was interviewed and he said: "I still hold Doan's Kidney Pills in high esteem and I gladly confirm my former endorsement of them. I have been free from kidney complaint since this remedy cured me."

## WOMEN WILL WORK FOR FAIR SUCCESS

Woman's Board Will Appoint Aides in Every County of California

SAN FRANCISCO, Oct. 3.—With the summer playtime and rest over, the women of California are turning their thoughts in definite shape to the things that will make for the success of the Panama-Pacific International Exposition, which is as important to the people of the farthermost corner of California as it is to those in San Francisco and the Bay counties.

Pursuant to the important matter of organization the members of the woman's board are securing representatives in every county of the state whose duties will be to get the co-operation of the women in every city, town and hamlet in their respective jurisdictions.

Outside of the responsibilities that will go with the office of county chairman, interesting personal relations will be established between the California women at large and the members of the woman's board. Later will come the direct connection with the exposition.

Each county chairman will appoint an advisory board and a chairman for each community, who in turn will appoint her co-workers. All these representatives will concern themselves with securing associate members at one dollar a year and with work for the benefit of their respective counties. At the time of the exposition they will co-operate with the woman's board in dispensing hospitality to California's visitors. A badge for members is being designed.

Among the women who have been appointed county chairmen are: Mrs. John Johns, San Mateo county; Mrs. John Johns, San Mateo county; Mrs. Charles M. Hershaw, Contra Costa county; Mrs. W. F. Engelbright, Nevada county; Mrs. E. R. Elmann, Butte county; Dr. Ida Lathrop Malpas, Menocino county; Mrs. W. W. Phillips, Fresno county; Mrs. A. Cammerell, Amador county; Mrs. Thomas Flint, San Benito county; Mrs. E. D. Huss, Bakersfield, for Kern county; Mrs. G. F. Getchell, Calaveras county, and Mrs. James H. Sherer, Colusa county.

## SUFFRAGE BUTTER ON THE N. Y. MARKET

"Votes For Women" Label Sells Butter at 4 Cents Lower Than Regular Price

NEW YORK, Oct. 3.—Mrs. O. H. P. Belmont has put suffrage butter on the market. While the cows responsible for the output may not be certified as suffragists at the start, the product undergoes conversion at the headquarters, 15 East Forty-first street, where the finest creamery butter will hereafter be stamped with a "Votes for Women" label and sold to the consumer at a figure three or four cents lower than the market price per pound. Forty-seven-cent butter was selling yesterday at the Belmont stronghold for forty-three cents.

The experiment of the suffragist leader in reducing the cost of living for her patrons, made possible by the splendid refrigerating plant which accommodates the stores for her luncheon, proved its popularity yesterday. Three saddles of lamb, a fore-quarter and a hind-quarter were disposed of before luncheon, the buyers bearing away their purchases in automobiles.

The forty dozen eggs which went at thirty-eight cents a dozen, while the best known grocers were selling the same guaranteed variety for forty-four cents were parcelled out to persons in all walks of life.

## PAY-AS-YOU-ENTER CARS IN 'FRISCO REDUCE ACCIDENTS

SAN FRANCISCO, Oct. 3.—By the introduction of the "Pay-as-you-enter" street cars, the United Railroads of San Francisco has reduced the number of fatalities and injuries to a degree that caused members of the Board of Supervisors yesterday to express themselves as more than pleased with the fact. It was shown in the report of the company that in the quarter ending June 30 there were but six persons killed and 360 injured, the list of injured including persons scratched and shocked by every means that is incidental to the operation of street cars.

Official records for 1909-10 show that there were sixty-seven persons killed in that period, making an average of seventeen a quarter, or almost 300 per cent more than were killed in the last quarter.

The reduction in the fatalities and injuries is chiefly accounted for by the fact that persons cannot jump on and off the P-A-Y-E cars as easily as they could the old style, and consequently passengers are protected from their own foolishness.

## GUARDSMEN WILL GET 97 CENTS A DAY

The California guardsmen who participated in the August maneuvers about Coyote will receive 97 cents a day from the state for their services, according to announcement from adjutant General Forbes' office.

His announcement settles the groundless complaints made by the militiamen in some parts of the state when they returned from the maneuvers that they would not get their pay from the state because the appropriation had been used for other purposes. They were supposed to have received \$1 per day, but the failure of the railroad to get the men back before midnight on the 31st of August has cost the state an extra day's pay to each man. The federal government paid each man 50 cents a day. This was paid before the men left the field.

The pay rolls of the various companies were slow in arriving at Forbes' office, thereby delaying the final announcement of the amount each man would receive. The companies may be paid off this week. There is a report that the money will arrive here before next Monday.

Millinery specials for this week—100 hats for \$3.95 to \$5.95 each. GILBERT'S DAYLIGHT STORE.

## Six Reasons Why You Should Do Business With This Bank

1. Depositing your money in bank makes it absolutely safe from loss by robbers, fire or accident.
2. With a bank account you can pay your bills by check. The canceled check is a legal receipt for payment. You cannot be made to pay the bill twice.
3. A check book makes all your money available at any moment, and you are never bothered about making change.
4. The bank keeps your books. Every deposit and the amount of the checks you draw are carefully entered in your pass book by expert bookkeepers, so that you know where you stand at the end of the month.
5. Nearly every man needs to borrow money at some time. If you are well known at the bank, through your bank account, it is easy to get accommodation.
6. Every check you write is an advertisement of your good business habits and solid worth, which has the effect of raising you in the general esteem of your neighbors.

Any one of the above reasons is of itself sufficient to influence you to open a bank account. It will only take a short acquaintance with this bank, and the facilities it offers, to convince you that six reasons are only a few of many more why you should make it your financial home. Now is the time to begin the practice of these most approved business methods, and to make this bank what we want it to be—

## NO EXCUSE OR MITIGATION

We have no quarrel with any Republican who purposes to vote for any Democratic nominee on the ground that the candidates and platform of his own party are unsatisfactory to him and do not measure up to his idea and ideals of what Republican candidates and platforms should be. But for a Republican who can't abide a difference of opinion, an expression of preference as between candidates and platforms within the party, a Republican whose shibboleth is party regularity and party loyalty, —for such a Republican to purpose and propose to vote for Democratic nominees would seem to be the height of inconsistency.

Assuming for the sake of argument that those Republicans who refuse to support President Taft for re-election are wrong from a party point of view, it still remains for the pro-Taft Republicans who purpose to support Mr. Wilson to show that they are right from a party point of view. From a party point of view at least, it is a fundamental principle of democracy that the majority is right, so in California overwhelmingly and in nearly all the great Republican states the anti-Taft Republicans have the right on their side.

One can readily understand and even sympathize with the attitude of those whose sense of party outrage or feeling of personal loyalty to President Taft impels them bitterly to resent the humiliating position in which their candidate is placed by the votes of a vast majority of the Republicans of the country; but what can it avail them, except possibly in the way of revenge, to lend their votes to the possible election of Mr. Wilson, or to the possible defeat of local legislative candidates who are the best of Republicans in everything except the very questionable Republican qualification of favoring the re-election of Mr. Taft?

Aside from the party point of view, and among those who are not crying treason and traitor against the Roosevelt Republicans, there is some excuse and justification for the Taft Republicans who purpose to vote for Wilson. Most of the Taft Republicans realize the hopelessness of Taft's election, and some of them who are sincerely and honestly afraid of Roosevelt naturally turn to Wilson. But neither from a party point of view nor in any other logical aspect of the case can there be any justification for a Republican in purposing and proposing to vote for Democratic candidate for congress, state senate or assembly. We venture the assertion that not one Roosevelt Republican in a hundred would have bolted any legislative nomination that might have gone against them at the primary election.

Evans, Anderson and Weisel are by every party principle and precedent and by every personal and civic right entitled to all Republican votes, and unless we misjudge the fairness and intelligence of the Republican voters of Orange county they will receive those votes at the November election.

### INJUSTICE, NOT PHILOSOPHY, SPURS MANKIND TO PROGRESS

FROM THE SAN FRANCISCO BULLETIN.

Progress is almost always the achievement of men laboring under a burning sense of injustice. Primarily, perhaps, it is injustice expressed in condition. Practically, it is injustice personified in their fellow men. It is this which fires those who are always plunging into the van in the world's great battles. No merely philosophical recognition of the evil in the universe has ever driven a man to wear out his life in fighting it. There must be antagonists who are profiting by evil, who are ready to fight for evil.

Philosophers found schools, but they never lead crusades. They interpret justice intellectually, but their work must be completed by men who interpret it emotionally. These are the men of action, the St. Bernards and Peter the Hermits, who are aroused by a vivid conviction of intolerable wrong. In our own day they are our Roosevelts and our Johnsons, and there are more Roosevelts and more Johnsons in the Progressive party than the two who are heading it.

In the developing of his consciousness of injustice may be discerned the ordained use of reactionaries. They furnish the emotional stimulus. Without them many a good fight would never have been fought.

and progress would have fallen into the hands of men who were slaves of a dull contentment. Few of us realize how much England owes to the obstinacy of Charles I, or America to the hard-headedness of George III. We may yet be able to thank God for our tyrants.

But there is no lesson of hate to be learned from this. It was not hate which made Arnold Winkelried gather the Austrian spears into his bosom at Sempach; it was not hate which made the Massachusetts farmers open fire on the troops at Lexington; it was not hate, on a later and bloodier day, which made the Progressives walk out of the Republican convention at Chicago. Out of Winkelried's sacrifice came a free Switzerland; out of the smoke of Lexington came the Declaration of Independence, which we are still striving to live up to; and out of the protest at Chicago was born a new party, dedicated to the cause of human betterment. These are not the fruits of hate.

What the cause of humanity is crying for all the world over is men who cannot look unmoved on the iniquities of civilization, but who hate not the men in whom they see those iniquities personated, but the unjust conditions which produce them.

### Giving Some Points On Growth of Trees

C. Bogue Luffman, the noted English citrus growing specialist, spoke again in Riverside the other night giving special reference to the reasons for orange trees rotting at the roots, and becoming old trees, when they should be in their prime. Mr. Luffman emphasized the point already brought out, that the trees should be planted high, so that the roots would work down in the soil on all sides, giving proper aeration and drainage. He also suggested leaving the ground rougher than many do, that it may be better aerated.

"The agriculture of the world was carried on by methods of ridging and ditching until about forty years ago," he said. "Then when the modern American farm machinery began to come into common use, the farmers were advised to adopt flat culture to expedite harvesting and to make farming by machinery easier. The flat system in our groves has resulted in trees becoming old at twenty and thirty years. Some of them are far gone. As one of your growers said in the vernacular, you will know what he meant, 'he was up against it.'"

The speaker gave his reasons for this failure in the fact that in the winter the soil was left wet, cold and airless, and in the summer it was dry, hot and airless. "It is physically, chemically and mechanically impos-

sible for the trees to get as much food in this condition as when the soil is ridged. Irrigation robs the soil at best, but it is worse to keep the soil soaked and to lock up the food in sour water.

"Most of the roots in such a soil are horizontal and do not penetrate below the changeable zone where they are alternately dried up by the sun and chilled by the water. We have got to keep the temperatures down. Even the manure should be applied as a mulch. Set the trees upon a ridge or mound and the secondary roots will strike at downward angle and will feed in the protected soil. Then you must deepen your soil by plowing once or twice a year, leaving the surface rough and irrigating in deep ditches. It is not surface wetting that we want. The water can't be put too deep; it will come up sufficiently.

"By striking downward, the roots serve the tree more efficiently because of the stronger upward flow of sap. A strong root system does not mean a widespread system. I had rather see the roots work back and refill the space left by the failing taproot. The trees are more easily fed in this way, because of the principle of sap flow.

"The whole community ignores aeration and drainage. You cannot

such conditions. The fact that they have lived as long as they have shows the remarkable adaption of your climate and soil to citrus culture.

"Another principle to remember is that this granite soil is a medium, rather than a food for the plants. Much more should be spent upon the fertilization of it than upon the tillage. I do not think so much labor is necessary: Instead of continuous culture, try deeper work. Loosen the soil with humus. Use manures or any coarse wastage, and permit the roots to go deeper. The trees will stand three or four more degrees of frost if the roots are in proper condition. A great part of the roots are destroyed here each winter because they are either too cold or too wet."

In regard to grading the land, Mr. Luffman advised a grading for soil uniformity, not surface uniformity. As to methods of procedure he advised that the orchardist go now and look for the natural drainage of his land, then plow deep furrows and make ridge and furrow leads to the outlet.

## PROFITABLE MEETING

Women of U. P. Mission Society Talk of Egypt;—Synod Luncheon Arranged For

The Women's Missionary Society of the United Presbyterian church met yesterday afternoon in the church parlor where a very interesting meeting was held. The beautiful spacious parlor was made very pleasant and homelike with an abundance of lovely chrysanthemums and cosmos. The president, Mrs. W. L. C. Samson, presided. The devotional service was led by Mrs. Harry Dean.

The subject for the afternoon was "Egypt and the Sudan." Those named on the program were unable to be present, but their places were ably filled by other members of the society. The program follows: "Bible Work in Egypt," Miss Rosaline Kellogg; "Service Rendered by the Mission Colleges in Egypt to Egypt," Mrs. Lea Warren; "Difficulties and Encouragements of Christian Missions," Mrs. D. L. Anderson.

The roll call was answered with names of missionaries of Egypt and Sudan. Following this Mrs. J. H. Henderson, Miss Rosaline Kellogg and Mrs. Lea Warren were appointed to draft resolutions on the death of one of the members, Mrs. Mary Reed.

Arrangements were completed for entertaining the United Presbyterian Synod of California, which will meet in the local church on Oct. 9-10. This meeting of the Synod will bring many noted ministers here from all over the state, as well as some eastern ministers who will address the Synod. The Women's Missionary Society will furnish dinner and supper each day in the church dining room.

Mrs. Harry Dean, the Thank Offering secretary, spoke on that department of work and urged that a large thank offering be given. Her remarks completed the business session and the ladies then engaged in a social hour. The hostesses were Mesdames Amos Cox, Mrs. Juliette Smith, Mrs. Harper and Mrs. E. Cox. Tamales, pies, sandwiches and coffee were served.

The next meeting of the society will be held on Nov. 6, and will be in charge of Mrs. Andrew Getty.

## All Day Meeting

The women of the First Methodist church held their monthly all-day meeting yesterday, the session of the Ladies Aid Society, which appropriates the forenoon for its meeting, beginning at 10:30 o'clock with Mrs. Alice Young, president, in the chair. Plans for raising the \$2000 pledged by this society to the church improvement fund were discussed as were other financial plans for the year. Every woman of the church has been made a member of the society, so there will be many willing workers in this year's work.

## THE WORLD'S FUTURE PERFECT WOMAN IS NOW IN TRAINING

From Minneapolis, Minn., the wires flash the following interesting story of Margaret Terry Hudson Grant, who is to become the world's most perfect woman physically, according to the future mapped out for her by her father, Richard Grant, director of track athletics of the University of Minnesota. Ever since she was three weeks old the baby has been training for the place she is some day expected to fill. Systematic exercise is as much a part of little Margaret's daily life as the food she eats. The exercises already have borne wonderful fruit. Some of the ways in which Margaret differs from other 2-year-olds are these:

Every part of her body is perfectly formed. She has a normal chest measurement of nineteen inches and an expanded measurement of 20½ inches, an expansion of nearly two inches; her biceps muscles measure five inches; she could walk when 10 months old; she could swim when 8 months old; she weighs twenty-eight pounds without an ounce of fat; she can walk up three flights of stairs and back without stopping.

The more common of her daily drills include: A wand drill to strengthen and develop chest muscles; exercises on a horizontal bar. She can hang from this cane forty-five seconds and almost "chin" herself; swinging back and forth while holding to her father's finger. She can keep her hold while swinging eight times; reclining on the floor and rising without touching her hands to the floor.

"She's going to be perfect physically when she grows up," confidently asserts Mr. Grant, "and probably that's something that can be said of no women in the world at this time."

public was decided upon to be held on Friday night, October 25 at the residence of Mr. and Mrs. Asa Vander-

ma. A committee was also appointed to prepare for a farewell reception for Dr. and Mrs. Murkett, should Dr. Murkett not be returned here by the present conference in session at Long Beach. Comforters were knitted during the forenoon.

At noon an excellent lunch was served by the ladies in the church dining room with about one hundred in attendance. The afternoon session was devoted to the Woman's Home Mission Society with Mrs. F. J. Rogers presiding. Reports for the year were heard and proved very interesting. This society is part of the Southern California Woman's Missionary Society which is the leading conference of the Methodist church in the world. The Southern California Society raised \$50,000 for home missions during its last fiscal year.

The ladies decided to hold an all-day missionary meeting at the church on Thursday, October 17, when boxes will be packed for the various causes aided by this society. Any one having fruit or jelly to contribute can feel sure their donations will be welcome. The program for yesterday afternoon included a paper by Mrs. Howard Wasson on "White Work in the South" and a paper by Mrs. P. A. Robinson on "The Treasury."

## WEDDING DAY RECALLED

Fortieth Wedding Day of Mr. and Mrs. J. S. Rice Observed by "Surprise Party"

Mrs. James S. Rice has for some time been the plucky victim of an accident that left her with a broken rib which has not yet mended but which fails to daunt her cheerful spirits. However, it did prevent a long planned celebration of the fortieth wedding anniversary of Mr. and Mrs. Rice, the date for which fell on yesterday.

Of course Mrs. Rice was unable to superintend the elaborate fete planned, so it was calmly given up. But the wedding anniversary did not go uncelebrated by any means.

The "Laguna crowd," friends of the Rices who had spent much of the summer at the beautiful seaside resort either as guests at the Rice cottage or at their own places, together with some Tustin friends, determined not to let the event go by without proper attention. So the Rice home in Tustin was invaded by a merry party of eighteen or twenty including the "in-laws" of the Rice family. The surprise of Mr. and Mrs. Rice was one of the happy features of the affair.

That a good time was the object of the gathering was amply demonstrated by the fact that not until the wee sma' hours were well on their way, did the jolly visitors think of saying their good-nights. It was all very happy and informal and was a pleasant celebration of the forty years of goodfellowship and companionship that have been enjoyed by Mr. and Mrs. James S. Rice, whose home has always been a center of social life and their unfailing jollity a joy to their friends.

## Business Meeting

The ladies of the Methodist church, South, will hold their regular business meeting in the church parlor on Friday, Oct. 4, at 2:30 p.m. It is hoped all the officers will be present to assume their duties. Ladies of the society and the church are invited to attend.

## Dollar Social

The regular meeting of the Ladies' Aid Society of the First Presbyterian church will be a dollar social, held at the residence of W. A. Zimmerman, 212 North Main street, Friday, Oct. 4, at 2:30. All ladies of the church and congregation are cordially invited to be present at this meeting.

## The Helping Hand

The Helping Hand Society of the First Baptist church had a delightful time yesterday at the pleasant home of Mrs. Otto S. Russell with fifty-five ladies in attendance. Lovely decorations of cosmos and roses were in evidence. The meeting was called to order at the usual hour by the president, Mrs. F. A. Holbrook.

Devotional exercises were led by Mrs. J. S. White, after which work was prepared by the ladies for Miss Corwin of the Indian school in Nevada. Last a social hour was spent. Nice refreshments were served by a committee in charge of Mrs. H. M. Robinson, chairman. Very sweet music was rendered on the victrola, which all enjoyed.

The ladies went home feeling they had spent a very pleasant and profitable afternoon.

## Philathea Social

The regular monthly meeting of the Philathea Class, M. E. church, South, was held at the home of Misses Ned and Lottie Morse, 1037 West Second street, Tuesday evening, Oct. 1. The meeting was opened by the singing of the class song, and prayer. The reports of the various officers were next heard, after which new officers were elected, as follows: President, Nora Morris; vice-president, Esther Johnson; secretary, Fay McDowell; missionary department, Eva Martin; deaconess, Wilma Youngman; class reporter, Pearl Melton; social committee, Cora Selfert; look-out committee, Lottie Morse.

The business meeting then adjourned, and supper of fruit, lemonade and cake was served in the dining room, which was beautifully decorated with the class colors, blue and gold. A special feature was the cake, with the word "Philathea" written across it. The honor of "cutting the cake" was conferred upon Miss Wilma Youngman, past president of the class, and as it was served, a souvenir was given each guest.

Music was furnished by a player piano and the remainder of the evening was spent around a skillfully im-

provised table.

More Valuable Than Gold In 1911, according to the United States Geological Survey, 2390 ounces of palladium were produced, 300 ounces from crude foreign and domestic sands and the rest from the refining of copper ores and copper bullion. Palladium finds a fairly large use in technology. Circuits of astronomical instruments are made of it, and it is also employed in watchmaking. Its most extensive use is probably for certain alloys in dental work. It is also employed for soldering platinum metals. As it is not altered or discolored by exposure to air it is often used for plating metal ware. The demand for this metal is greater than the supply.

According to the Bureau of Statistics, 1218 Troy ounces of palladium were imported into the United States in 1911, the value assigned being \$6,307, or \$46.22 an ounce.

## Guild to Hold Lawn Fete

The Woman's Guild of the Church of the Messiah held their first meeting of the year in the Guild Hall yesterday afternoon. Seven new members were taken into the society at this meeting and plans made for the lawn fete to be held next Wednesday afternoon at the home of Mrs. E. V. S. Pomeroy, 808 South Broadway.

## Literary Section

This section of the Ebell will hold its first meeting of the season, Tuesday, Oct. 8, at the home of Mrs. Clayton, 531 East First street.

The club will take up the study of the American prose writers, Hawthorne and Irving being the subjects for the meeting of Tuesday.

## REAR ADMIRAL DIES

Admiral Lucien Young, 13 Years in the Navy, Victim of Fatal Hemorrhage

NEW YORK, Oct. 3.—Rear Admiral Lucien Young, U.S.N., died at the Waldorf-Astoria yesterday afternoon from an intestinal hemorrhage. He was 60 years old and married, his wife being with him when he died. Admiral Young had been in the navy 43 years. He started on a month's leave of absence on September 19, and had been at Key West and Havana before coming to New York.

## MUNICIPAL WATER OWNERSHIP IS NOW ASSURED PASADENA

PASADENA, Oct. 3.—The million and a quarter bond issue was disposed of by the City Council at a special session yesterday morning. Bonds to the amount of \$1,000,000 will be sold to the Union National Bank of this city, and the remaining \$250,000 worth to the State.

Quick work is expected. City Attorney Carr hopes to have the money available by a week from next Saturday. Mayor Thum declared yesterday that it is probable that the city will own the property of the three water companies whose holdings it is to take over the first of next month. In another month he expects to see the municipal system in full running order.

## THE WIRELESS FORCE ON THE COAST IS INCREASED

Federal Law Requiring Two Operators on Vessels Carrying Over Fifty Passengers, in Effect

SAN FRANCISCO, Oct. 3.—The force of Pacific Coast wireless operators was increased by about 100 Tuesday, when the new Federal Wireless law, which requires the employment of two operators on every vessel carrying more than 50 passengers, went into effect.

Hereafter an operator will be on watch on every ship at all hours. One of the coast wireless companies is installing a new auxiliary system, consisting of batteries which will permit the ship's wireless equipment to be used after the electric current has been cut off.

## QUARTER OF AN INCH RAIN LAST NIGHT

A quarter of an inch of rain fell last night, up to 7 o'clock this morning, after which hour there was a light shower. The fall of the night previous was .06 inch, making a total of .31 inch for the season.

Thus the rain record for the winter of 1912-1913 is started. Last night's rain was not of sufficient quantity to do any great harm. It did not interfere with the sugar beet harvesting. Even had the rain been much heavier there would have been but a short delay. Prolonged, heavy rain would harm the sugar beets materially.

Practically all the beans are under cover. Vegetation was brightened by the rain. Vegetable crops received benefit.

## Some Fine Apples

SACRAMENTO, Oct. 3.—Out of the fifty-two presidential electors—thirteen each from the Prohibition, Socialist, Democratic and Republican parties—eleven are women, according to the tentative sample ballot just prepared by Secretary of State Jordan.

The Prohibitionists have three, Mrs. Annie E. K. Bidwell, Stella B. Irvine and Lucy S. Blanchard. The Socialists have five—Jennie Ream, Rose Walker, Ida Kinney, Ethel Lynn and Mary Garbutt. The Democrats have two—Mary Bourn Tucker and Mary E. Roy. The Republicans (Progressives) have one—Mrs. Florence Collins Porter.

## THE STOCK YARD

Good pasture is invaluable in growing pigs successfully.

Milk is the hog's natural food. Give him all of it you can spare up every day.

Consumers are demanding pork with more lean meat. The feeder and breeder should cater to these requirements.

The feeder should try to keep the pig steadily increasing in weight from one-half to one pound each day on an average.

Cleanliness is next to godliness—and ahead of it with the milk inspector.

A cow appreciates punctuality in milking, as much as a man does in meals.

Be sure there are no lice on the young stock when they are turned to pasture.

There is money in dairying in spite of a prevalent notion to the contrary, but it needs a combination of good cows and good management to get it out.

"No foot no horse." It won't take long for an ignorant shoer to ruin the best foot.

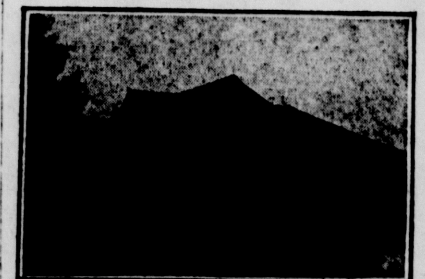

Look out for the yearling colts. Don't let them get a setback as spring approaches.

A stumbling habit may be caused by poor shoeing; or it may be caused by ignorant or careless hitching.

A colt appreciates the companionship of man, and he should have it, especially during the first year of his life.

## PROGRESSIVES DEEP ROOTED IN NEW ENGLAND SAYS JOHNSON

### Conservatism Is Myth—Personnel of Leaders of New Doctrine Is One of Real Distinction

(B. E. A. Dickson, Staff Correspondent of Los Angeles Express and Tribune.)

BOSTON, Mass., Sept. 29.—New

England conservatism is a myth. Such is the conclusion of Governor Johnson after a speaking tour in which he addressed thousands of New Englanders in Massachusetts, Connecticut and New Hampshire.

He entered upon his campaign in this territory with misgivings as to actual results to be obtained. He left it firmly convinced that Progressivism is just as deep-rooted with the mass of the people as it is anywhere in the country.

Boston, with all its tradition and all its reverence for the past gave him one of the warmest welcomes that he received anywhere along his journey. Nor was Boston's greeting to the man alone. Every principle that he enunciated was given the sort of endorsement that denotes understanding and sympathy.

Hartford, the capital of Connecticut, celebrated his coming with red fire and a torchlight parade, and enough people were turned away from his meeting to have twice filled the hall.

Manchester, with its great factory population, packed its largest auditorium in New Hampshire and gave as emphatic approval of the man and his new doctrine of social and industrial justice as lung power could express.

On his New England tour, Governor Johnson officiated at the formal launching of the Progressive party in all three states.

Massachusetts led off with the state convention at Worcester. Delegations from all sections of the state were present and the Progressive campaign started off with a bang.

The Progressive candidate for governor is Charles Sumner Bird, a manufacturer, and a pioneer in industrial reform.

What Oscar Straus is to New York

Charles Sumner Bird is to Massachusetts. Each has been a Progressive since long before the term began to take on a political significance. The nominations in New Hampshire and Connecticut added two more strong leaders to the remarkable list of men that is being put forward by the new party.

Connecticut nominated Herbert Knox Smith for governor at their meeting at Hartford. Knox resigned from the Bureau of Commerce and Labor because he could not endorse President Taft's policies. The platform adopted by the Connecticut Progressives favors the direct primary, a presidential preference primary, initiative, referendum and recall, home rule for cities, equality of suffrage and a workman's compensation act.

New Hampshire nominated Winston Churchill, author of "The Crisis" and other historical novels. Churchill fought railroad influence in New Hampshire four years ago, but was unsuccessful. Behind him today, however, there is the splendid influence of Gov. Robert P. Bass and thousands of earnest Progressives.

Here, too, direct legislation forms an important part of the Progressive platform. Strong labor planks, equal suffrage, direct primary and prohibition of child labor add additional planks that will appeal forcibly to the voters of New Hampshire.

In the personnel of its candidates, the Progressive party can certainly claim distinction. Straus in New York; Bird in Massachusetts; Churchill in New Hampshire; Herbert Knox Smith in Connecticut; and Fraser Metzger in Vermont is an array of talent that will command universal approval. All are fitted by nature and experience to advance locally what Roosevelt and Johnson are striving to preach nationally.

State by state, the definite organization of the Progressive party is proceeding satisfactorily, swiftly and permanently.

State by state, the definite organization of the Progressive party is proceeding satisfactorily, swiftly and permanently.

## "CASCARETS" FOR A SICK, SOUR STOMACH

### Sluggish Bowels Cause Gases, Sourness and Food Fermentation

That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, feeling of fullness, dizziness and sick headache, means a disordered stomach, which cannot be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any.

Try Cascarets; they immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the intestines and bowels. Then your stomach trouble is ended. A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular for months. Don't forget the children—their little insides need a good, gentle cleansing, too.

TELEGRAM FROM THE DEAD

Archdeacon Collier of England, Just Dead, Prepares Message to Be Sent Soon After Death

LONDON, Oct. 3.—Archdeacon Collier, who died Monday, was an adept in spiritualistic demonstrations. Shortly before his death he caused the following telegram to be written, ordering it to be sent to his son immediately after he died:

"Just going for a little rest in the beyond before seeking another incarnation. Shall try to let you know of my occasional presence. Have left instructions as we arranged together. Body in box. Just going to medical faculty of Birmingham University. Hurra! for next inning, a round, we trust, of useful life!"

You and your driving horse will like our shoeing. Smith, 407 North Birch.

## Hill's Corner

It is quite evident that galvanized corrugated Iron (and all flat sheets) will be considerably higher before this year is gone. There has already been several slight advances within the past thirty days, but we placed our orders early and the iron we have "to arrive" with a good stock on hand will hold this market steady for some time.

The general tendency is upward for all heavy goods in our lines and we have provided for the immediate future by placing our orders farther ahead than usual, by and by we will be compelled to pay the higher prices if our "guess" is correct.

Our stock of Plumbing goods is about complete and all our plumbers and tanners are busy.

The outlook for the year ahead is good, barring political errors.

## BOARD OF SUPERVISORS

SIXTEEN BIDS  
ARE RECEIVED

Next Monday Supervisors May Reach Decision as to Purchase of Poor Farm

The Board of Supervisors has received sixteen offers of sites for the county poor farm and county hospital, for which \$60,000 bonds have been voted, sold and accepted by the bond buyers. The money will be received from the bond buyers in about three weeks. The sites offered are from nearly all over the county, but most of them within a few miles of Santa Ana. Yesterday the supervisors took the bids under advisement and for investigation. A final decision may be reached next Monday. At any rate, on Monday the board will meet to discuss the offers. Yesterday the board was too busy with other matters to do more than open the offers.

## Will Build Bridge

Yesterday the supervisors reached an agreement with the Young Construction Company for the erection of the concrete bridge to be built on West Fifth street across the Santa Ana river. The contract was let to R. L. Hogue for \$18,350. Hogue fell down on the contract. Negotiations were then taken up by the county with the Guardian Guaranty people, with the result that the county passed the necessary resolutions turning the work

over to the Young Construction Company which offered to build the bridge for the actual cost of labor and materials plus 15 per cent. Should the expense exceed \$18,350 the surety company will have to stand the excess.

## Ask Amendment

Dr. G. H. Dobson and Victor Walker as a committee of the Orange County Fish & Game Protective Association asked the supervisors to amend the county ordinance protecting shellfish in such a manner as to protect mussels. The matter was referred to the district attorney.

The petition of E. H. Henshaw to lay a pipeline across a county road south of Anaheim was granted.

WANT FLAGMEN AT  
BOTH OF THE CROSSINGS

Anaheim Gazette: Both the Santa Fe and the Southern Pacific railways will be compelled to maintain flagmen at the dangerous street crossings if the City Trustees adhere to their present determination of protecting traffic from the many trains passing on those roads. In response to previous action of the board the superintendent of the S. P. requested permission to install a swinging bell at the Los Angeles street crossing, but the board decided that this was little better than a stationary bell, and nothing but a signal man would be sufficient to protect the lives of the hundreds of people passing each day. The city clerk was instructed to notify the companies to establish flag stations at once. The S. P. signified its willingness to do so but offered the bell at the Los Angeles street crossing as a substitute if acceptable.

## AT THE COURTHOUSE

ADMIT PUBLIC  
TO COURTROOM

Judge West Reverses Himself on Reading Decision on Exclusion Point

When the defendant objects, the judge of the superior court cannot exclude the public from a trial. This was the decision of Judge West this morning when District Attorney West requested that the spectators in the courtroom step out during the examination of Helen Hamblen, the girl alleged to have been wronged by R. C. Macdonald, former school principal, on trial for felony.

When the request was made Judge West ordered the public excluded. Attorney Bishop for the defense objected, saying that the constitution of the state guarantees a defendant "a speedy and public trial."

"This is the first time in my experience," said Judge West, "that a defendant has not been willing to this order to be made. It is a new point with me. I believe the supreme court will rule that the exclusion of the spectators in order to save embarrassment for the witness is not prejudicial to the rights of the defendant."

The order clearing the courtroom was made, and about twenty-five or thirty spectators who were present went into the corridor.

Attorney Bishop then found a decision on the point, showing that trial must be in a room into which there are swinging doors through which the public may pass at will.

"My order is withdrawn," said the judge. Bailiff Murray was instructed to announce at the door that the public would be admitted. All witnesses were excluded until called to testify.

Helen Hamblen, then on the stand, was the first witness sworn in the case. The information charges that the felony was committed at Macdonald's home on South Main street on Sunday, May 12, 1912.

The jury to try Macdonald was secured yesterday. On the jury are C. L. Hallett, C. H. Meacham, George H. Young, C. W. Almes, John C. Tuffree, Arthur Hofer, A. L. Whiteman, H. F. Stewart, John Lemke, C. C. Lambert, R. J. Wiley and C. C. Stoner. District Attorney West and Deputy Koepsel are prosecuting and Clyde Bishop and Epstein, the latter a San Francisco

The company is empowered by its articles to grow, sell and buy oranges and other products, own land, etc.

## Sues For Damages

J. W. Babbitt has brought suit for \$5350 damages against Caroline E. Shaffer. The complaint, filed by Attorney Harding, alleges that on August 25 Babbitt was driving his automobile on a grade near Oceanside when an automobile, owned by the defendant and driven by her 15-year-old son, came up the grade rapidly and without warning ran into Babbitt's machine, damaging the machine and injuring Babbitt to some extent. Damages all told of \$5350 are asked.

BEATS HORSE  
WITH SCYTHE

Anaheim Mexican Jailed For Killing Animal He Was Driving in 'Buggy'

S. Tannez, an Anaheim Mexican, is in jail at Anaheim on a charge of cruelty to a horse. The animal was beaten with a whip and then with a scythe blade, with which frightful wounds were inflicted, causing the horse to bleed to death. Yannez was drinking. He started his horse off on a run, and used a whip until the whip broke. The drunken brute then picked up a scythe blade and began striking the horse with the weapon.

City Marshal Kellenberger of Anaheim threw Yannez into jail. Yannez is to appear before Justice Howard at Anaheim this afternoon.

Put Up \$25 Each  
1. Fields and A. Launcers, proprietors of a poolroom at Anaheim, have deposited \$25 each for their appearance in court before Justice Cox on Oct. 31. The two men are charged with distributing obscene and indecent literature.

Charge Insanity  
Deputy Sheriff Law and Officer Ryan today brought Ben Wiley to the county jail from Newport Beach. Wiley seems to be almost deaf and dumb. When arrested by City Marshal Porter at the beach town, Wiley fought like a wild man. It is thought that the man is crazed with drink.
